

Total Visual Solutions. Trusted Signage Partner.

# WE ARE

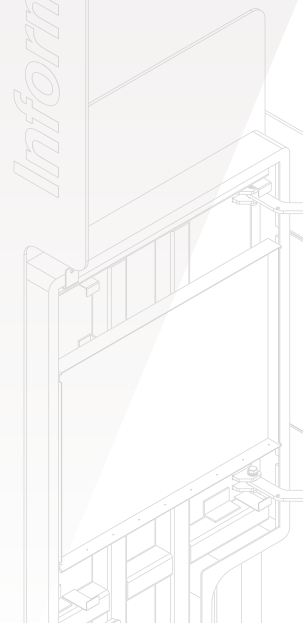

**Committed to delivering the visual edge.**

CV Media & Signage are a national provider of customised visual solutions. With over 30 years' experience delivering industry leading outcomes to a broad range of loyal customers we are experts in digital and static signage. We drive our customers marketing objectives through innovation and personalisation.

We have grown to become one of the most respected visual solutions providers in Australia. Our unwavering commitment to delivering the visual edge to our customers is delivered through the proven experience of our team, our in-house capability and our dedication to meeting your specific signage needs... ensuring that we are their first choice.

CV Media & Signage is proudly part of CV Services Group. The group provides a broad range of complementary offerings including electrical design and construction, electrical infrastructure, visual solutions, and facilities services.

*Information*

# CONCEPT

Your vision, our experience.

We work closely with our customers to design the optimum signage solution. Our team will conduct site audits, provide expert advice and develop customised and innovative options for new or existing spaces. Let us transform your vision into an experience.

# DESIGN

**We boast a qualified and experienced in-house creative team.**

Experts in graphic design, sign engineering, CAD design, animation and video production. By taking the time to fully understand your business and signage needs, we ensure the right visual solution is delivered. We specialise in customising visual solutions that integrate effectively with your brand.

# CREATE

We have an in-house dedicated, state-of-the-art manufacturing and print facility.

From concept to completion, our capability extends from building digital platforms to manufacturing complete signs. With static and digital expertise, we provide the opportunity to innovate across a diverse range of visual solutions.

Our capabilities include:

- Complete metal, plastic and electrical fabrication
- 2-Pak Baking & Finishing Booths
- CNC Router
- Digital print using direct to substrate UV and solvent printers, TZTP electronic knife cutting of printed materials
- LED, neon & fluorescent illumination works
- Traditional hand signwriting and vinyl capabilities
- Digital signage; video walls, interactive screens, digital kiosks, projection, digital menu boards

# MANAGE

**We commit to managing your project every step of the way.**

At the core of every successful signage project is a capable, and experienced project manager. When dealing with CV Media & Signage your project manager will be the single point of contact, overseeing your project from initial quote through to installation and final inspection.

At the heart of any digital media installation is content management. Our cloud based content management system (CMS) provides an accessible and flexible platform to manage your digital assets. The CMS gives you total control of how and when you display content and in what format, providing everything you need for engaging digital media displays.

# INSTALL & SUPPORT

**Our service doesn't stop at installation.**

With in-house teams, we are specialists in fixed signage installation, electrical wiring, digital systems integration, network set up and software management. Our installers have a proven track record in quality and safety standards.

CV Media & Signage provide a full service and maintenance program for larger systems. This is a nationwide service that includes 3 tier support structure, 24/7 phone support, technology hot swap and onsite service.

Our online system allows us to proactively monitor and maintain all assets in the field to ensure the best uptime possible for our customers. Each service and maintenance program is tailored to our customer's system requirements for maximum cost effectiveness.

# PROVEN TRACK RECORD

Our team has a strong track record in delivering engaging, unique and personalised visual solutions to a wide range of customers and industries.
