

ELECTRICAL
CONSTRUCTION
Expert solutions. Exceptional service.

COMPLETE SOLUTION

With over 30 years of experience, the Electrical Construction team delivers quality electrical design and construct services to a diverse range of commercial, industrial, government and residential sectors. As one of the largest businesses of its kind in Queensland, the team has grown to provide services to our valued clients across multiple state-wide locations.

With experience across industrial, commercial, multi-level residential and project housing, our clients can have complete confidence in our electrical design, construct and installation skills. Our team has a well-earned reputation for service excellence, quality of work and a total commitment to our customers. This commitment extends across our capability to deliver on the biggest projects and still focus on the smallest details.

Committed to delivering you the edge by always:

- Putting safety first
- Understanding and respecting your priorities
- Communicating openly to ensure there are no surprises
- Delivering quality outcomes

Expert solutions. Exceptional service.

CONSTRUCTION

Developers and builders can access a complete electrical construction solution, including electrical design and certification, installation of projects from concept planning, through to design and building approval, construction and completion.

To a variety of customers in the industrial and commercial sectors, we deliver:

- Reticulated electrical infrastructure works
- General and specialised power installations
- Full internal and external lighting installation
- Communications and data
- Security systems
- Access control
- MATV solutions

With experience across a broad range of industrial, commercial and multi level residential projects, as well as within the aged care and education sectors, our knowledge and expertise ensures the highest level of quality in execution and delivery. Having an in depth understanding of construction operations allows us to ensure all electrical aspects can be delivered on time with strict schedules and tailored to specific customer needs.

Expert solutions. Exceptional service.

HOUSING

Our project housing customers enjoy a full range of electrical installation services including:

- Design and drawing works
- Full internal and external lighting and house wiring
- Air conditioning install
- Complete solar service
- Home automation
- Electrical maintenance needs

Completing over 800 homes per year, the Electrical Construction housing team has proven systems and processes as a result of broad experience and continued evolution. Our electrical contractors are equipped with the skills to ensure ease and efficiency across all projects and exceeding the expectations on quality and delivery.

Our team has the capability to seamlessly integrate into your housing program to deliver on time, every time. The knowledge base of our housing team comes from long term successful relationships with respected project builders including Metricon, Mancorp Quality Homes, Integrale Homes, Ausmar and many more.

 **CV**
Services Group
delivering the edge

Expert solutions. Exceptional service.

DATA INSTALLATION AND MATV

The CV team provides a full range of electrical services for the construction sector. As part of specialised data installation and MATV offer, we provide:

- Vendor specific structured cabling systems with 25 year warranty, Cat5e, Cat6, Cat6A and Cat7 solutions
- Fibre network design and installation
- Fibre testing and commissioning
- MATV including 5 wire foxtel
- Home automation
- CCTV systems designs and installation

The processes have been carefully developed to deliver final outcomes that seamlessly integrate into the overall electrical design.

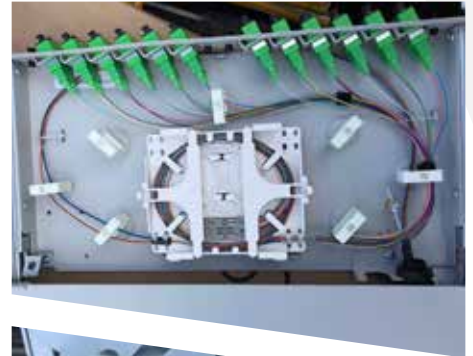

FIBRE AND COMMUNICATION

CV provides a comprehensive fibre and communications offer, delivering on-demand design, construction and maintenance services across Australia's fibre optic and communication infrastructure. This includes:

- End to end network construction
- End-user customer connections
- Network assurance
- Proactive maintenance
- Network remediation
- Network relocation works

From constructing state-of-the-art broadband networks to maintaining and upgrading existing networks, we provide a range highly skilled field services.

CERTIFIED AND ACCREDITED TO GET THE JOB DONE

CV systems are externally certified by SAI Global:

- **Quality** certification to ISO 9001:2015 standard
- **Environment** certification to ISO 14001:2015 standard
- **OHS** certification to ISO 45001:2018 standard

CV is accredited to undertake underground and overhead work on ENERGEX assets. We are on the Ergon Energy Preferred Contractor Panel and are a Level 1 Approved Services Provider in NSW.

We are members of Master Builders, MEA (an accredited Master Electrician Australia), AI Group, the Plumbers Association, the Australian Sign & Graphics Association, the Facility Management Association and the National Fire Industry Association.

We are a Telstra approved contractor and are Molex and CommScope certified installers.
