

CV Services recognises its obligations to operate in a sustainable manner and to increase awareness and understanding of sustainability with our team members, our customers, and our suppliers. In everything we do, we will ensure that we drive a focus on continuous improvement and encourage innovation to deliver industry best practice.

We believe that in order to be a sustainable business we need to constantly look for better, smarter and more efficient ways of doing what we do.

Our Approach

We will implement our sustainability goals through a range of programs including environment, the community, our people and innovation. CV Services takes a broad and long-term view of sustainability and innovation through informed and balanced decision making and processes.

The Environment

We will take steps to improve and measure our environmental impact through focused initiatives carried out by each business and addressing the social and environmental impacts of our core products and services. At all times we will seek to minimise our environmental footprint and deliver positive environmental outcomes.

Our People

We are committed to ensuring that all team members have the support, opportunities, and capabilities they need to deliver the edge to our customers and to reach their full potential. At the core of our business, we seek to grow and develop our team members and encourage their full potential to be realised.

Innovation

At the heart of the CV Services business is the concept of delivering the edge to our customers and stakeholders. By doing this we will ensure that the business continues to grow and can provide industry leading solutions. Every team member is encouraged to continually seek better and more efficient ways of working and we will actively research and drive innovation across the group.
